

CREATING EXTREME BACKYARD MAKEOVERS...

INDUSTRY LEADER

Blue Water has proven we are one of the finest and most respected design/builders in the country. We were selected to participate on ABC TV's *Extreme Makeover: Home Edition* and installed a pool on an episode that aired in the fall of 2006.

Blue Water was selected for our expertise in the industry and for our experience with complex construction challenges. We proved building a pool in just six days can be done. The entire project including water features, landscaping and lighting was completed in the time allowed.

This pool is just one example of Blue Water's commitment to meet even the tightest deadlines.
